

# Are We Still A Free Society?

***“They that can give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety.”*** - Benjamin Franklin

It is time to speak out before it is too late!

Can you say what is on your mind without being labeled a radical, bigot or racist? Are you tired of being told what to think? Do you feel government has too much control in your life? Do you believe that you are paying too much in taxes? Do you feel alone?

**Prevention = Control** Every time someone from the government says they want to pass a law to prevent something from happening what they really are doing is establishing control. The favorite cliché is ‘Do it for the Children’.

**Divide and Conquer!** That is what is happening in America today. Everyday the rights of a minority faction are demonized and attacked by a vocal group. Laws are passed and a new criminal class is created. Perhaps you are not a smoker or a gun owner or the driver of an SUV. The day will come when what you choose to eat will be a crime. It is time to **Unite against Tyranny!** It is time for all good Americans to rise and let their voices be heard before we are all made into criminals.

“WHEN THE GOVERNMENT FEARS THE PEOPLE THERE IS LIBERTY;  
WHEN THE PEOPLE FEAR THE GOVERNMENT THERE IS TYRANNY”.

—Thomas Jefferson

America was formed on the belief of self-government, that is each individual can pursue his own happiness so long as another's Rights are not trampled on. The sole purpose of establishing a government was to ensure that the Rights of the citizens of America would not be lost. It is enshrined in the following excerpt from the Declaration of Independence, which we are celebrating today.

**“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed.”**

There are only four months until the next election. An election that will prove to be a pivotal turning point for the United States of America. Will you stand and fight for your liberty and to ensure that the future is full of liberty for your children and grand children? Or, will you stand on the sidelines and hope and pray that someone else is watching out for your rights? We have been letting our elected officials watch out for our rights and we watch them disappear! It is time to get off our behinds and commit to defending our inalienable rights. Four months of commitment to the future of our nation is not too much to ask.

What ever you do, remember to **Do It For The Children**, because one day the children are going to awaken and find that their parents squandered away their unalienable rights because they were too busy.

“When we got organized as a country, we wrote a fairly radical Constitution with a radical Bill of Rights, giving a radical amount of individual freedom to Americans There's too much personal freedom. When personal freedom's being abused, you have to move to limit it.” — William Clinton, President of the United States on MTV's “Enough is Enough”, March 22, 1994
